## NEWSLETTER Term 3 Week 7 Friday 4 Sept 2020

### Animals...

This term we have been thinking about the animals of the bible... well some of them any way!

So last week I did a bit of research and discovered that there are evidently over 8,000,000 different species of animals in the world. I reckon that's pretty amazing.

I posed the question to our staff, 'What's your favourite animal and what do you think God was trying to tell us when he created it?'

For some it was the Eagle because of its strength and others it was the penguin because of the way they live in groups.

So...what's your favourite animal? And what can you learn from it?

## Primary Years Program Term 3

### PYP Exhibition

**Students in Year 6 have begun work on their PYP Exhibition.**

The Exhibition is the culmination of learning from students' entire time in the program and is designed to showcase their knowledge, understanding, skills and attitudes, along with their ability to take action on issues. The Exhibition will be based around the theme of ***Sharing the planet***, with a focus this year on looking toward the year 2040. This focus is based on the book and movie, 2040 by Damon Gameau, which students spent some time looking at this week. They began with some discussion and brainstorming around global issues which will potentially impact what the world will look like in 2040, and they have also started work on art pieces based around their initial thinking about these issues.

The PYP Exhibition will be different this year to previous years' exhibitions, due to the challenges we face as a result of COVID-19. We will keep parents and members of the community updated about plans for Exhibition and just what format will be involved.
