The ability to help others is a rewarding experience. Participating in this event allows students to gain an understanding and appreciation for the community in which they live. Not to mention the health benefits (social and physical) of walking to school as a group.

A representative from the Gawler Health Foundation will speak to the students prior to the event to inform and motivate students to get involved and to speak about the Gawler Health Foundation.

To assist with organising the event (staffing and catering) please complete the section below and return to school by Tuesday the 16th of May.

If you have any questions please don’t hesitate to ask.

Yours in Christ
