

14 November 2018

Dear Parents/Caregivers (of 2019 Yr 4, 5, 6 students)

iPad Information Session for Parents

At the end of last term a booklet was sent home about **information technology in 2019** and some changes that will be taking place at Immanuel Gawler. The booklet provided details about the **introduction** of a **1:1 iPad program**, the rationale for the program and changes to the IT levy that is currently in place.

As explained in the booklet, the school will be holding an information session to share further details about the program and give parents and caregivers an opportunity to ask questions.

The information session will be held on:

Wednesday 28 November at 7:00pm in Taikondi.

This session will be about one hour and will provide more information about the nature of the changes, the reasons for the changes, how the program will be implemented and the use of iPads in the classroom.

We look forward to the opportunity to share with you as we prepare for this exciting initiative.

Yours sincerely

Daryl Trigg
Principal

Andrew Boesch
Coordinator of Learning
