

## Music

Last Term our Foundation to year 3 students learned the recorders.

For those students who enjoyed learning an instrument, and would like to keep practicing the recorder, I have a great app which they can use.

The year 2's and 3's used this program, however I didn't introduce it to the Foundation and year 1's.

I find that the program not only helps with their note pitch learning but their note value learning and overall skills in reading music.

If your child would like to get a 'leg up' on recorders before next year's music program, this would be a great app to download!

It can be used from Foundation up to adults!

The program is very interactive, and takes the student through how to play notes, note values, and reading music. All aspects which we use in our general music lessons.

The app is free, and the school has paid for the licences!

The program is called **Blackbelt recorder!**
