## What's the biggest word you know?

Generally I'm not a fan of big fancy words. It could be due to having lousy spelling skills that I need to practise/practice...or possibly being a bit slow on the uptake generally. I don't know but I do know if you're trying to communicate and people don't know what you're saying, then you're not really communicating at all.

However... there are some big fancy words that cannot easily be replaced by a couple of syllables.

*Egalitarianism* is one of these words.

It's a very Australian word that depicts our culture and general approach to life - I first came across it at Uni when Hawky was PM (and so when Hawky passed away the other day my mind immediately drifted back to 1984 and a lecture room at Flinders).

But the lecturer, who was pretty much like anyone else I'd ever met, didn't use a bible reference to explain it.

However, one of the most amazingly normal and yet abnormal people in history, the apostle Paul wrote to the Galatians (3) and explained the word 'egalitarianism' saying .... **26** So in Christ Jesus you are all children of God through faith, for all of you who were baptized into Christ have clothed yourselves with Christ. There is neither Jew nor Gentile, neither slave nor free, nor is there male and female, for you are all one in Christ Jesus. If you belong to Christ, then you are Abraham's seed, and heirs according to the promise.

In other words.... think like an Australian and don't think of yourself as being better than anyone else.... remember that God sees everyone the same... and that his promises apply to all who call on his name.

Big words are never as impressive as the little word called 'grace'.

## The Primary Years Program

### Integrating technology – Year 3

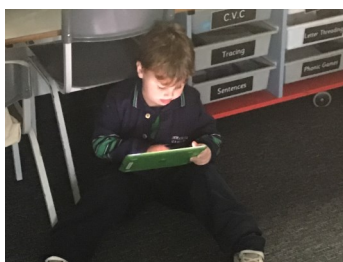

The use of technology in the Primary Years Program gives students great opportunities to investigate, create, communicate, collaborate, organise and be responsible for their own learning.

Our Year 3 students took part in a very engaging unit on animal habitats as part of their *Sharing the planet* theme. Students were excited about inquiring into different animals and the issues which impact on them. As part of their unit they created some amazing interactive posters, tying their research into some work they had been doing with Mr Cochrane by combining Makey-Makey technology with the Scratch.mit.edu coding program. This has enabled students to record voiceover for a poster which has added extra information, turning a simple poster into an interactive project.

### Integrating technology – Foundation

Our Foundation students have been using technology to help them with their writing. They have been working with iPads to put together animated stories and record their own narration. This has allowed them to practice with developing ideas and using narrative structure and vocabulary. It has been great to see the creativity and engagement they have shown with this.

### Hands on learning – Foundation

The PYP encourages students to learn by doing and develop understandings through inquiring into questions and testing different possibilities.

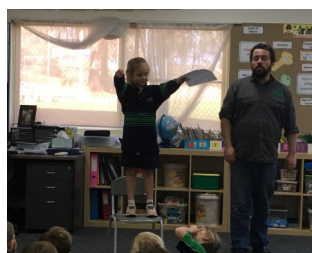

Last week the Foundation class had a wonderful opportunity to do this when they hosted a visit by Mobile Science Education as part of their current unit of inquiry.

### Central Idea

Objects have different characteristics

### Lines of inquiry

- Features of objects
- Why objects move in different ways
- How we explore objects

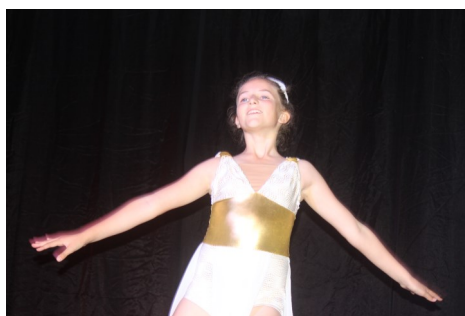

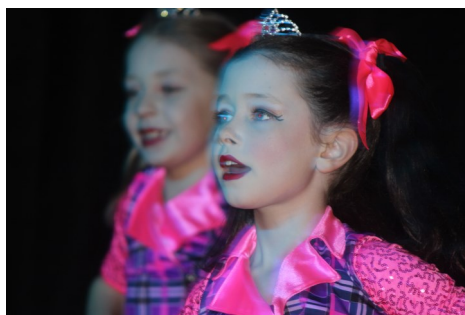

Students took part in a range of experiments and watched some demonstrations. They found out about forces and how they affect different objects.

## CABARET

Cabaret was a great success with over 300 attending.  
Thanks for everyone for attending and supporting it.

## YEAR 6 RESTAURANT NIGHTS

### **Transdisciplinary learning – Year 6**

In preparing students for life outside of school, where problems aren't split up into different subjects, the PYP aims to give students opportunities to work on tasks which extend across different curriculum areas.

Our Year 6 students have been busy planning for many weeks, a couple of very special evenings taking place on Wednesday 26 and Thursday 27 June. They have created and are hosting a Stephanie Alexander Kitchen Garden Restaurant experience, showcasing their skills and creativity with the preparation and serving of a three course meal to some very special invited guests. In preparing for their restaurants, students brought in learning from many different areas of the curriculum – sourcing and cooking food in the Kitchen Garden program, developing marketing programs as part of their unit of inquiry, including writing and recording advertising jingles with music, and budgeting for their restaurants in their maths lessons.

The delicious sounding menus are as follows:

### **Yin yang the freshest**

Entrée - A fresh earthy broth with rich delicious pumpkin wontons

Main - Asian Hokkien noodles with crispy stir fry vegetables

Dessert - A scrumptious mandarin ricotta cake

### **Flip Side**

Entrée - A soft delicate ravioli, filled with ricotta, basil, spinach and lemon

Main - A spicy Indian curry bowl with a soft buttered flat bread

Dessert - A soft lemon curd cream pot with crunchy biscuit pieces and a  
and a creamy yoghurt

### **Benvenuto**

Entrée - A crusty clean pizza base with earthy potatoes and freshly  
harvested rosemary

Main - Delicate fettuccine with a sweet and spicy tomato sauce

Dessert - A creamy and silky avocado mousse

Wednesday night was terrific! Good luck for Thursday night & great job to all involved.

## CONGRATULATIONS

Sophie Bevis who competed in the SAPSASA netball carnival last week. She was in the 2<sup>nd</sup> division and her team won as many as they lost. She really enjoyed herself.
