NEWSLETTER Term 2 Week 9 Friday 26 June

Got some change?

How many Psychiatrists does it take to change a light bulb? *(Only one, but the bulb has got to really WANT to change.)*

How many Board meetings does it take to get a light bulb changed? *(This topic was resumed from last week's discussion, but is incomplete pending resolution of some action items. It will be continued next week.)*

How many Lionel Richies does it take to change a lightbulb? *(Just one, but it'll take him all night long.)*

Turns out there are thousands of these 'light bulb' jokes.

Up until I started shedding some light on the subject, I only knew one... How many Lutherans does it take to change a light bulb? *(Why what's wrong with the old one...)*

But I do think this joke is a little unfair, because the whole Lutheran beginning was based on radical change... just do a little bit of research on Martin Luther and you will see. He was someone who really nailed home the concept of change.

This week my 'Hero of Faith' is Martin Luther and as we switch the spotlight onto his life and role in the reformation, there are 5 Pillars that burn brightly for me –

- **Sola Scriptura** – by scripture alone
- **Sola Fide** – by faith alone
- **Sola Gratia** – by grace alone
- **Sola Christos** – through Christ alone
- **Sola Gloria** – glory to God alone

These principles are the same ones illuminating our school some 500 years later.

Primary Years Program Term 2

Curriculum

Primary Years
Programme

Year 6 Unit of Inquiry

This week the Year 6 classes completed a unit on exploration and discovery.

Central Idea:

Exploration leads to discovery and develops new understandings of the world

Lines of Inquiry:

- Personal and political reasons for exploration
- Methods and means of exploration
- How discoveries have influenced our world today

Students spent some time during this unit focusing on exploring ideas and how this has led to discoveries which have benefitted our world. The Year 6s did some exploring of their own by designing experiments and testing their ideas about some different scenarios.

Year 4 Unit of Inquiry

The Year 4 classes have been looking into sustainability in their unit of inquiry and finding out about the importance of looking after our environment.

Central Idea:

We have a responsibility to live sustainably

Lines of Inquiry:

- Ways we manipulate the environment
- World views on caring for the Earth
- Strategies for sustainable resource management

They spent some time last week conducting an audit of our waste here at school.

STEPHANIE ALEXANDER KITCHEN GARDEN PROGRAM Semester 1

This week the year 6's had their last sessions in the Garden and Kitchen.

On Wednesday Roshan (Aneegha's dad) helped in the kitchen creating a banquet of Sri Lankan Cuisine. Dishes included Bean Curry, Beetroot Curry, Potato Curry, Dahl and Rice dishes. Roshan had all the different recipes in his head, as he had learnt them from his parents. The students were really impressed and excited to learn.

Next Semester the Year 5's will get to enjoy the SAKG Program. It explores growing, harvesting and cooking produce from our garden. Students have a Garden lesson with Mr Wundersitz on Tuesday mornings, then a Kitchen lesson with Mrs Kreymborg on Wednesdays. We welcome volunteers to help (no specific gardening or cooking skills required nor volunteer training!)

Thank you to our students in Year 3!

Thank you to Emily and Lauren (year 3) for researching and designing this poster regarding our environment.

Taking action about our environment is really important and will help raise awareness.

Eva (year 3) wanted to say thank you to the office staff for helping her with some first aid the other day, so she made this lovely poster.

WORSHIP AND PRAISE T2 W9

Thank you to Year 3 Mrs Bosworth's class for presenting Worship and Praise on Friday 26 June. They shared the story of **"The Life of Florence Nightingale"**.

This has been uploaded to our website [click here](#), for families to logon and watch from home.

Here are some tips on STAYING HEALTHY

Taken from: <https://www.sahealth.sa.gov.au/>

HOW MUCH FLUID SHOULD I BE DRINKING EVERY DAY?

All toddlers/young children

Boys

Girls

Adults

*includes plain water, milk and other drinks, but it is better if most of the fluid you drink is plain water. 1 glass=250mls.

Government of South Australia
SA Health

SOAP AND WATER

PREFERRED METHOD

- protects you if you wash your hands properly (for at least 20 seconds)
- soap removes the lipid membrane around the coronavirus and destroys it

Tip: regular soap can be used. It doesn't have to be antibacterial

VS

HAND SANITISER

ONLY WHEN SOAP & WATER IS UNAVAILABLE

- only effective when hands aren't visibly soiled
- rub into all surfaces of hands until dry

Tip: use a hand wipe first if needed

KEEP WARM this winter

Wear a beanie and a scarf: heat escapes from your head and neck

Wear extra layers: clothes made from wool or cotton are the best

Close the curtains and put a rug on the floor: to stop heat escaping

Wear slippers or socks at home: to keep those toes warm

Keep mobile: even when indoors

Check on those at greater risk: to make sure neighbours, family and friends are okay

Make sure heating devices are working properly: don't bring outdoor heaters inside, as they are a carbon monoxide risk

Seal drafts around doors/windows: use door snakes, weather seal tape, silicon, storm-proof seals
